Fall is here and Winter is just around the corner. Now is the perfect time to take advantage of our Fall yard clean-up specials, so that you can focus on other important preparations for your holiday get-togethers.

A **Fall yard clean-up** includes **leaf and branch debris removal, cutting back dead stalks of spent perennials, pulling out dead annuals, and clearing out any weeds** in your landscape beds. With proper Fall yard maintenance, shrubs and perennials will have a lower risk of plant diseases next Spring, and raking the lawn ensures your grass won't smother under a burden of fallen leaves.

In addition to our Fall clean-up special, take advantage of our great prices on **landscape winterization** and **gutter cleaning**. Mulching landscape beds will insulate the crown stalks and the root system of shrubs and perennials. This insures your plants will return in the Spring just as healthy and full of colorful blooms as before. With gutter cleaning, removal of leaf debris before colder temperatures hit, it will keep everything from freezing solid for the remainder of Winter.
