

Arbor Masters Tree & Landscape

Landscape Questionnaire

Some helpful ideas:

Gather photographs or examples of landscape designs from magazines/websites that you would like incorporated into your design. Share them with your designer. Drive through your neighborhood to find examples of landscaping you like and record those addresses to share with your landscape designer.

Now, close your eyes and envision what you want your landscape to feel like when it is completed. What do you want to see when you arrive home each day? When you walk outside? Are there any important views from the house or property? Are there any natural features or terrain that you wish to take advantage of? Think about the overall purpose of your project; it may be helpful to write down your thoughts to share with your designer.
